PROFESSIONAL SUMMARY

Third-year Computers and Information student at Assiut University with hands-on experience building responsive web applications with HTML, CSS, and JavaScript, and a Django-based portfolio application. Familiar with Python, Object-Oriented Programming, Data Structures, relational databases, and Git/GitHub. Seeking a Full-Stack Developer Internship to apply my technical skills, contribute to software projects, and grow as a software engineer.

EDUCATION

Assiut University – Faculty of Computers and Information **Expected Graduation: 2028**
Undergraduate Student – Third Year
Relevant Coursework: Programming Fundamentals, Object-Oriented Programming (OOP), Data Structures

PROJECTS

Personal Portfolio Website

Live Demo | Source Code

Individual Project
Technologies: Python, Django, SQLite, Tailwind CSS, HTML5, CSS3, JavaScript

- Developed a personal portfolio web application using Django and SQLite.
- Implemented dynamic project management through Django Admin.
- Built a contact form with database storage and email notification support.
- Implemented project image uploads with automatic resizing and Web conversion.

Fanni Ceramic Website

Live Demo | Source Code

Front-End Developer
Technologies: HTML5, CSS3, Vanilla JavaScript

- Developed a responsive Arabic RTL website for a Kuwait-based ceramic installation and maintenance service.
- Created multiple pages covering services, location-specific information, and educational articles.
- Implemented interactive front-end elements, image galleries, and WhatsApp contact integration.

Al-Husseiny Contracting Company Website

Live Demo | Source Code

Front-End Developer / Contributor – Collaborative Client Project
Technologies: HTML5, CSS3, JavaScript, Font Awesome

- Contributed to a responsive multi-page corporate website.
- Developed layouts for the homepage, company profile, project gallery, and articles.
- Integrated visual and media assets and configured sitemap.xml and robots.txt.
